

Pilvi participates in WHD.global 2014 on April 1-3. During the event we will launch a unique cloud marketplace and meet potential partners. We are searching for both cloud service providers and consultancy partners to join us. Pilvi Team will be present at our booth @ B19. Please visit our booth and let's have a few words about co-operation opportunities.

*You will also find us at the
Bellevue stage on April 1st at 17:25.*

Pilvi.com

Is a global cloud services web store and market place developed by Finnish start-up Pilvi Cloud Company. The unique platform offers companies the possibility to buy and manage cloud services from leading global and local service providers. The web store is open 24 hours every day.
